Geocaching is a modern-day treasure hunt that makes use of your smartphone or other GPS-enabled device. Using any mapping app type in the coordinates and the app will show you the approximate location of the cache*. When you find the cache, you will scan a QR code to take a fun quiz and get a clue and coordinates to the next location. Find all five and submit your gamecard for a chance to win prizes.

*Note: Due to COVID-19 restrictions, hidden caches are flyers, not typical geocache boxes

Up and away we go, on our first cache quest,

Can you hear the rumbling, can you feel it in your chest?
